[Makkah – Jeddah](#)

Summary

A computer science student at Umm Al-Qura University. I'm continuously developing my technical skills through courses and self-learning. I gained practical experience in protecting industrial systems and working with network infrastructure, including switches, routers, and servers.

Education

- Bachelor of **Computer Science** GPA: 3.62 / 4.0 **2023 – Present**
Umm Al-Qura University | Kingdom of Saudi Arabia
Expected Graduation: 2027

Experience

- Cybersecurity & Networks Intern** | Yanpet - SABIC Affiliate **Jan 2026 – Jun 2026**
- Infrastructure & System Administration:** Configured Cisco switches (VLANs, Ports, IPs), deployed Windows Server with RAID, and managed Active Directory, GPOs, DNS, and central patching via WSUS.
 - Information Security & Data Protection:** Implemented security controls to ensure data integrity and confidentiality (CIA Triad), while monitoring and protecting industrial data flows within the operational technology (OT) network.
 - Technical Support & Security Awareness:** Handled end-user PC setup and corporate provisioning, while delivering cybersecurity awareness presentations to educate employees on data protection.

Certificates and Courses

- | | |
|--|-------------------|
| 1. CompTIA Security+ Training Course Cyberani Academy | June 2026 |
| 2. CompTIA Security+ ce CompTIA | June 2026 |
| 3. Data Entry and Word Processing Al-Basaer Institute | March 2026 |
| 4. Web Development Fundamentals IBM SkillsBuild | Sep 2025 |
| 5. Cybersecurity Fundamentals IBM SkillsBuild | Sep 2025 |
| 6. Network Security 102 Satr Platform | Sep 2025 |

Projects

- 1. Cisco Assets & Vulnerability Assessment Project** | Yanpet **May 2026**
- I have **inventoried** and documented the **routers and switches** belonging to Cisco.
 - Checked** hardware and firmware **versions** to identify **existing vulnerabilities** in each device.
 - Researched and **developed solutions** to prevent the exploitation of these vulnerabilities.
- 2. Personal Portfolio Website** **Sep 2025**
- Developed a personal website to showcase projects and skills.
 - Portfolio: <https://anas-portfolio-rose.vercel.app/>
