[Makkah – Jeddah](#)

Summary

Computer science student at Umm Al-Qura University, currently in my sixth semester (cooperative training). I have two semesters remaining, and I expect to graduate in mid-2027. I'm currently training at Yanpet (A SABIC subsidiary) in the cybersecurity department, where I'm gaining practical experience in protecting industrial systems and working with network infrastructure, including switches, routers, and servers. I'm continuously developing my technical skills through courses and self-learning.

Education

High School Diploma | Kingdom of Saudi Arabia

- Cumulative GPA: 99.35
- Qudurat Score: 92
- Achievement Score: 85

Umm Al-Qura University | Kingdom of Saudi Arabia

- Bachelor of **Computer Science** Student | Current Cumulative GPA: 3.62 / 4.0

Certificates and Courses

1. **Cybersecurity Fundamentals** | IBM SkillsBuild | Sep 2025
2. **Network Security 102** | Satr Platform | Sep 2025
3. **Web Development Fundamentals** | IBM SkillsBuild | Sep 2025
4. **Data Entry and Word Processing** | Al-Basaer Institute

Projects

1. Cybersecurity Simulation | IBM SkillsBuild | Sep 2025

- Identified vulnerabilities and applied basic defensive measures in real-world scenarios.

2. Web Development Project | IBM SkillsBuild | Sep 2025

- Developed an interactive web application using HTML, CSS, and JavaScript.

3. Java Garage Management System | Satr Platform | Sep 2025

- Built a vehicle management system using OOP principles.

4. Personal Portfolio Website | 2025

- Developed a personal website to showcase projects and skills.

Experience

Cybersecurity Trainee | Yanpet (A SABIC subsidiary) | 2026 – Present

- Gaining hands-on experience in protecting industrial systems within an operational environment.
- Working with network infrastructure, including switches, routers, and servers.
- Assisting in monitoring and maintaining system security and performance.
- Supporting basic network and system-related tasks within the I&CS department.

Skills

• Technical Skills

- Cybersecurity
- Network Infrastructure (Switches, Routers)
- Server Management
- Web Development (HTML, CSS, JavaScript)
- Object-Oriented Programming (Java)

• Communication Skills

- Time Management
- Teamwork
- Attention to Detail
- Problem-Solving
- Adaptability
